Agnė Kudarauskienė

Vice-Minister for Education, Science and Sport, Lithuania

My current position as Vice-Minister of Education, responsible for Vocational Training and Lifelong Learning, is directly related to policy making to ensure that the skills of young people and adults meet the needs of the labor market. My other responsibilities includes a position as MS project leader of the The European Union's IPA Programme for the North Macedonia EU funded Project "Further support to the implementation of the National Qualifications Framework".

I am appointed as a National coordinator for the European Year of Skills 2023, and also was a National coordinator in EU Structured Dialogue on Digital Education and Skills 2022.

My past experience working in employers' and industry associations includes implemented projects aimed at developing digital competences of engineering industry specialists, I was also a member of the Human Resources Group of the National Platform "Industry 4.0", co-author of Lithuanian Industry Digitization Roadmap 2019-2030.
